## Christian Oversohl appointed as new CEO of Swiss IT Security Group AG

Wettingen (Switzerland) January 12, 2022

Effective January 15, 2022, Dr. Christian Oversohl will be appointed as the new CEO of Swiss IT Security Group AG (SITS Group). He assumes the role from Philipp Stebler as part of a planned succession. Stebler founded the company in 2017 and continues to support it as an investor and member of the Board of Directors.

Christian Oversohl brings more than 25 years of top management experience in leading global digital consulting and technology services companies, including 17 years as Managing Director and Senior Vice President at Publicis Sapient and several years as Member of the Board at Allgeier Connect AG. International acquisitive and organic growth, a deep understanding of digital transformation and fast changing markets as well as building strong teams and supportive organizational structures are among his major strengths.

*„Christian Oversohl combines all the requirements and experiences we need to grow Swiss IT Security Group into one of Europe's leading cyber security companies in the coming years," says Jürgen Rottler, Chairman of the Board of Directors of SITS Group. "The combination of many years of extremely successful international top management experience and deep industry expertise makes him an ideal fit for the position of our CEO.“*

*„Hardly any other IT security company has as much potential as the SITS Group. I am excited to seize on our tremendous market opportunity and to open another successful chapter in the development of this company together with our customers and partners, all colleagues in the group as well as our investor Triton", says Christian Oversohl.*

### **About the Swiss IT Security Group**

The Swiss IT Security Group, headquartered in Wettingen (Switzerland), offers its customers comprehensive security services and solutions. With around 600 employees the company combines the know-how, resources and services of a top-class cyber security provider into a comprehensive service provider and, with the help of innovative solutions and technologies, offers its customers overall IT security concepts based on the aspects of protect, detect and defend.
