# WHAT
# WE STAND FOR

## VISION
Our vision is a world where all data is adequately protected. To this end, we design customized solutions with expertise and passion.

## MISSION
We are a group of companies that offers you customised services that are developed by our diversity, implemented with passion, and consolidated by our expertise. We find the best solution for you and are always thinking one step ahead.

¤ **We take responsibility.** For our customers, partners, colleagues, employees and for our environment.

¤ **We trust others.** We return the trust placed in us by our customers, employees and partners.

¤ **We are reliable.** We keep our word. When we take on a task, we successfully see it through to the end.

¤ **We are passionate about our work.** For us, it's not just a job – it's our calling. We want to make the world a more secure place and are doing everything in our power to achieve that goal.

¤ **We love security.** The security of our customers and their data defines what we do. We find the best security solutions for our customers.

**WE** ARE
**SWISS IT SECURITY GROUP**

sits-group.ch

# DIGITAL.
# BUT SECURE.

### CHRISTIAN OVERSOHL
CEO Swiss IT Security Group

**The world is increasingly digital, which results in new opportunities in all areas. But there are also risks associated with digitalisation. Our vision is a world in which all data is adequately protected. This is what all employees at all Swiss IT Security Group locations are committed to every day.**

Our employees are our most valuable asset. It is only through their expertise and passion that we are able to offer innovative solutions and customised services to all our international customers. It is only because of them that we are able to grow sustainably.

Protect, detect, defend – these are the principles for our overall IT security concepts. This is how we guide our customers into a secure digital future.

# WHAT WE DO

## IT SECURITY – SECURING THE FUTURE TOGETHER

Security needs partners. As a leading group of companies for IT security, we stand for comprehensive security. With over 600 employees, Swiss IT Security Group combines the experience, expertise, resources and services of a top-class IT security provider to form a comprehensive whole.

We use innovative solutions and technologies to offer our customers comprehensive IT security concepts with a focus on protection, detection and defence. Our solutions include the implementation of tailored strategies, employee training and wide-ranging service packages. Companies are increasingly networking their processes in every area. Thanks to coordinated measures and a multilayer defence system, our customers are ready for the future.
